

Dear Irena,

I am so happy to tell you about my facelift which was carried out by Dr.Prakash in March 2018, I am so delighted with my face.

Everybody that knows me thinks I look much younger which pleases me no end. The procedure itself was painless and other than some discomfort and initial swelling which Dr. Prakash explained before anyway, I was back at work in 14 days.

I was also pleased with the care and attention I received before and after the operation. I even got the use of a chauffeur driven car during the 10 days stay.

I found Dr.Prakash and his team very professional and knowledgeable and I highly recommend to anyone wishing to do any procedures to take a similar path.

Your very happy client
